

SUPPLEMENTARY PERMIT TO ENGAGE IN FISHERY OPERATIONS WITHIN
THE SOUTHWESTERN ALASKA FISHERIES RESERVATION

Supplementary Permit No. 36-a-1924.

Northwestern Fisheries Company.

Uyak Cannery.

November 27, 1923.

A permit, No. 36-1924, having been granted to the Northwestern Fisheries Company under date of October 25, 1923, for the operation of a salmon cannery at Uyak, within the Kodiak-Afognak District of the Southwestern Alaska Fisheries Reservation, wherein it was specified that in lieu of other fishery operations by the Northwestern Fisheries Company and the Alaska Packers Association distribution of salmon should be made at a weir to be constructed in Karluk River, the said permit is hereby modified as follows:

1. That fishing operations may be carried on by means of beach seines as in previous years on the beach beyond the zone 100 yards outside the mouth of the Karluk River where it breaks through Karluk Spit.
2. That a weir is to be constructed by the Bureau of Fisheries in the Karluk River for the enumeration of the spawning escapement and not to exceed fifty (50) per cent of the red-salmon run shall be taken in fishery operations by the two companies named.
3. That in view of these restrictions no pack limit will be imposed and no allotment will be enforced on the pack of humpback salmon, as the presence of this species on the spawning grounds in Karluk Lake is recognized as a menace to the red-salmon run.
4. That this permit expires December 31, 1924, is not transferable, and is revocable at any time at the pleasure of the Secretary of Commerce.

E. B. DAVIS

Acting Secretary of Commerce.
